

TOGAF(R) 9 Word Puzzle #1

November 2011

www.CrosswordWeaver.com

ACROSS

- 1 Architecture Building Block (3)
- 3 The existing architecture before entering a cycle of review and redesign (8)
- 6 ADM Guidelines and _____ are provided to assist in application of the TOGAF ADM (10)
- 10 The US Public Company Accounting Reform and Investor Protection Act 2002 (8,5)
- 11 Artifacts are generally classified as Catalogs, _____ and Diagrams (8)
- 15 A description of the future state of an architecture (6)
- 16 The process of managing architecture _____ applies to all phases of the TOGAF ADM (12)
- 18 A step by step approach to develop and use an enterprise Architecture. The core of TOGAF (3)
- 21 The Architecture _____ Framework includes a structured metamodel for architectural artifacts (7)
- 22 A mnemonic for the four architecture domains in TOGAF (4)
- 24 The detailed Implementation and

- Migration Plan is finalized in this phase of the ADM cycle (5,1)
- 25 The Architecture _____ document is created in Phase A (6)
- 27 A Stakeholder has these (8)
- 30 An abstract representation of a subject of interest (5)
- 31 A planning technique that focuses on business outcomes (10,5)
- 34 A style of architecture that supports service-orientation (3)
- 35 A general rule or guideline (9)
- 37 A joint agreement between development partners and sponsors (12,8)
- 39 A technique used to mitigate risk (4,10)
- 40 A matrix to show Create,Read, Update and Delete relationships (4)
- 41 A data model for the Retail Industry (4)
- 42 A business modeling technique that describes functions associated with the enterprise's business activities (8,7,5)

DOWN

- 2 The first architecture domain to be

- undertaken (8)
- 4 The phase during which recommendations are made for each implementation project (14,10)
- 5 Business _____ are a technique to discover and document business requirements (8)
- 7 The first phase of the TOGAF ADM (11)
- 8 A Stakeholder _____ is used to record the findings of Stakeholder Management (3)
- 9 An implementation of an Industry Architecture (8,7)
- 12 The first version of TOGAF was based on this framework (5)
- 13 An implementation that has no features in common with the architecture specification is said to be _____ (10)
- 14 An architecture work product that is contractually specified and formally reviewed (11)
- 17 A core component of the III-RM (9,11)
- 19 The Architecture _____ is where architectural output of the ADM is stored (10)
- 20 An Architecture Governance Process (6,10)

- 23 A package of functionality defined to meet business needs (8,5)
- 26 An implementation that has some features in common with the architecture specification is said to be _____ (10)
- 28 A category of architecture change that requires putting the architecture through the ADM cycle again (14)
- 29 Solution Building Block (3)
- 32 A technique used to validate an architecture being developed (3,8)
- 33 A collection of components organized to accomplish a specific function of set of functions (6)
- 34 An implementation of a Common Systems Architecture is known as a _____ Solution (7)
- 36 Requests for Architecture _____ are considered in Phase H (6)
- 38 A stakeholder group that must be kept satisfied (3)
- 40 The minimal set of architectural content in the Metamodel (4)
